News has a id and a title. I also have another table named Feeds. Feeds has a foreign key from News id. Now, I'm trying to create a feed that shows what the title of News is when a foreign key points to it in Feeds. Like this: News id, title 1, 'Item one' 2, 'Item two' 3, 'Item three' Feed id, feed_id, title 1, 2, 'Item one' 2, 3, 'Item two' 3, 2, 'Item three' I need the result to look like this

The song is the first single taken from the band's first studio album, Toys in the Attic. The song was released as a single in July 1970. Background and recording The inspiration for the song came after the band's drummer, Joey Kramer, had a dream in which he was playing with two bands, one with him and the other with Jimmy Bain. When they got into the studio, they had to try to record it, and the song was recorded in only six takes.
